

High-End Build

This component list is for the extreme PC enthusiast. No compromises have been made in bringing you the highest possible performance.

CPU

Intel Core 2 Extreme X6800 Conroe 2.93GHz LGA 775 Processor Model BX80557X6800

<http://www.newegg.com/Product/Product.aspx?Item=N82E16819115001>

\$ 975.00

This is the fastest PC processor on the market, period. AMD simply has nothing to compete with this, making the choice between Intel and AMD simply unnecessary. Some might prefer the quad-core CPU from Intel, but until software catches up, this processor will perform the best for nearly every task, including gaming.

Motherboard

ASUS Striker Extreme LGA 775 NVIDIA nForce 680i SLI ATX Intel Gaming Motherboard

<http://www.newegg.com/Product/Product.aspx?Item=N82E16813131074>

\$ 329.99

This top of the line motherboard from Asus is filled with many innovative new features and is perfect for anyone looking to get the best possible performance from their system. It will allow for great overclocking and great system stability.

Memory

2 X CORSAIR XMS2 2GB (2 x 1GB) 240-Pin DDR2 SDRAM DDR2 800 (PC2 6400) Dual Channel Kit Desktop Memory

<http://www.newegg.com/Product/Product.aspx?Item=N82E16820145034>

\$ 135.00 X 2, \$ 270.00

This is 4 GB of top quality, name brand memory at a great price. 4 GB will serve you well for any possible task now and in the future.

Hard Drives

Seagate Barracuda 7200.10 (Perpendicular recording) ST3750640AS 750GB 7200 RPM
16MB Cache SATA 3.0Gb/s Hard Drive

<http://www.newegg.com/Product/Product.aspx?Item=N82E16822148134>

\$ 229.99

Western Digital Raptor X WD1500AHFD 150GB 10,000 RPM Serial ATA150 Hard
Drive

<http://www.newegg.com/Product/Product.aspx?Item=N82E16822136011>

\$ 209.99

This combination of hard drives will serve all your possible needs. With the Raptor you get lightning fast storage for your Operating System and other programs, and with the large Seagate drive you get enough storage for just about anything.

Video Card

EVGA 768-P2-N887-AR GeForce 8800Ultra 768MB GDDR3 PCI Express x16 HDCP
Video Card

<http://www.newegg.com/Product/Product.aspx?Item=N82E16814130093>

\$ 799.99

This is simply the fastest video card on the market. This particular one is also overclocked by the manufacturer and offers full support for HDCP protected High Definition video. You can get more bang for your buck with a cheaper card, but you won't get any faster than this.

Case

Antec Performance One P180B Black Computer Case

<http://www.newegg.com/Product/Product.aspx?Item=N82E16811129017>

\$ 129.99

This case has stunning good looks and an innovative new cooling design that separates the power supply from the rest of the case for cool, quiet operation. It's a great match for your high end PC.

Optical Drive

LG 18X DVD±R DVD Burner with LightScribe Black IDE Model GSA-H22L

<http://www.newegg.com/Product/Product.aspx?Item=N82E16827136115>

\$ 34.99

Optical drives have come down to extremely reasonable prices in the last year. This one will burn anything you throw at it, burn labels with its lightscribe technology, and match your case as well.

Power Supply

SeaSonic M12 SS-700HM ATX12V / EPS12V 700W Power Supply

<http://www.newegg.com/Product/Product.aspx?Item=N82E16817151031>

\$ 209.99

SeaSonic is known for the extremely high quality, quiet power supplies. This power supply has a completely modular cable system, and will provide you with plenty of clean power for any configuration.
